## Additional Information

It's possible to borrow one of four keys to the emergency accommodations, against a deposit of 500 SEK. Keys are obtained at the office and the person who signed for the key is personally liable for its whereabouts. Missing key is charged with SEK 1500, including your deposition.

However, there are only a few keys to be used. Those who sleep in the emergency accommodation but don't have a key, must therefore contact students with keys to be admitted into the apartment. Phone lists of these students are available at the KOMBO office and in the emergency accommodation. Students who have obtained the key are required to let other guests in at an agreed time, on production of valid ticket.

The emergency accommodations are 2-3-room apartments equipped with a simple kitchen with fridge, freezer and a microwave. The bathroom facilities may vary. The apartment also offers a basic range of supplies, tableware, glassware and cutlery, air mattresses and a kitchen table with chairs. Please contact KOMBO if supplies are about to end. The same goes if anything in the apartment would break.

If you are planning to stay several nights in the emergency accommodation, you should know that luggage is left in the room at your own risk. KOMBO does not take any responsibility for private objects contained in the emergency accommodation.

Please note that we unfortunately can't guarantee that you will be able to stay in the same apartment during your entire stay with us. We do however try to accommodate you in the same apartment if at all possible.

Usually, you do not have to use the emergency accommodation for long.

We are happy to answer your questions at the office or on the phone +4613-28 28 05 and email [bostad@karservice.se](mailto:bostad@karservice.se). Don't forget to book additional nights in the emergency accommodation through the KOMBO office, if you should need them.
